FOSTER CHILDREN

The G.S.A. has two foster children, Julia Arancibia in Bolivia, and Egberto Rivera in Ecuador. We received this progress report from Julia's social worker.

Dear Foster Parents:

I have the pleasure to send this progress report which will let you know how your foster child and family have been doing over here.

Julia is 7 years old. She is a sociable and a good child. Her mental and physical development is normal for her age. She is fine. This year she is doing the 2nd grade of primary school and got an average of 4.1 out of a possible 7 in the first two months. She is repeating the same grade. She would like to become a dressmaker. She likes to play with stones and empty cans. The letters are written by many persons.

The emotional relationships between the parents are good. Love and comprehension do exist in this family. The children and parents get along well. The father provides for everything for the family and the mother takes care and educates her children. Her son Jesus stays at home and Celestino is in the 4th grade of primary school. The foster child's brother, Pedro, died on July 14, 1980 and Jesus was born on July 31, 1980. The father is working as a farmer and the mother is a house-wife. The father is making \$48.00 per month and spends his income as follows: \$40.00 on food, 0.80 on kerosene, 3.20 on transportation and 4.00 on others. The family also has annual expenditures of \$20.00 on education and \$40.00 on clothing. The father's extra income is for these expenditures. They have a deficient diet mainly based on corn, wheat, quinoa and potatoes.

The monthly assistance you are sending is used to buy school supplies and clothes for your foster child. They received the special cash gift of \$8.34 on February 8, 1981. They used it to buy a blanket for the foster child.

They are living in their own house of two rustic rooms. The house is in bad condition. There is no running water. It is brought from a river. Bathroom facilities are not available so they must go outdoors. They built a small room for a kitchen.

The foster child has stomachaches; the rest of the family is in good health. In case of sickness they go to our Health Department, where they receive medical and dental services.

The family is poor and the father is working alone. He is making many efforts to support his family. The mother does all the household duties. The father cultivates a piece of land which is not very productive and the harvest is in small amount. After the harvest the father goes to Sucre to work as a labourer in order to increase the family's income. The family's income is low and the father cannot earn sufficient money to cover all their needs because the cost of living is very expensive over here since our money's devaluation. They have a critical economic situation.

Respectfully I would suggest that you continue with your generous assistance to this humble family. They are very thankful to you for the things you are doing for them.

Sincerely yours,

Oscar Sandy
Social Worker
